

Otomato CI/CD workshop prerequisites

Dear participant!

Thank you for enlisting for our modern CI/CD workshop.

Please note that the workshop will cover quite a lot of knowledge in a short time frame.
Therefore it's highly recommended to come prepared.

For this workshop you will need:

- A laptop
- A Google Cloud Platform Account
- A Github account
- A Docker Hub account
- Curiosity and patience.

Please make sure to register with all of the services listed above.

In addition - please use the following link to join the Slack workspace which we will use for communication before, during and after the workshop:
